## YELLOW FEVER.

Shocking Disclosures in New Orleans—  
People Dying Alone in Grenada.

NEW ORLEANS, August 19.—Rev. J. K. Gutheim, Edwin J. Kursherd and other officers of the Hebrew Benevolent Association make the following appeal: The sickness and distress and suffering among the poor is daily increasing. Our funds are nearly exhausted. In this sad calamity we deem it our melancholy duty to appeal to the sympathies of our brethren throughout the United States for speedy aid.

A novena, or nine days' prayer, is ordered in all the Catholic churches of this city for the cessation of the scourge. Bishop Elder, of Natchez, directs the recital of daily prayer for the aversion of the mortal sickness.

The Democrat to-morrow will publish an account of a reporter's visit to two tenement houses near Poydras market, and the sickening sight there presented. The houses were principally occupied by Italian chicken dealers. From one house sixteen persons had been carried out dead during the last two weeks, and from the other ten. No. 292 Poydras street was almost deserted, the beds on which the sick died remaining intact. In the neighborhood eight have died during the last forty-eight hours. The house of the Italians was almost deserted, there being in it only one sick man and attendants. All the rest who so far have survived have fled to the suburbs. The yards of two houses where chicken dealers lived presented a most terrible appearance. The mattresses of the dead, the decaying vegetable matter, and decomposing refuse offered food for the disease. The Board of Health have allotted to its members the respective districts in which each is to work.

## The Government and Trade Dollars.

WASHINGTON, August 19.—The Treasury Department has received a number of communications from large firms and others respecting Linderman's circular of July 25, relative to the value of trade dollars. The writers, judging from the tone of their letters, belong to that class of thifty persons who, before the Department informed the public that the trade dollar was only worth its bullion value—which at present rates is but 90 cents and a fraction—were in the habit of buying the coins in question at a discount varying from 5 to 3 per cent, and then passing them off at par. This was the case in some large manufacturing establishments, where the employees have been invariably paid partly in trade dollars. Railroad companies also realized a large saving by using trade dollars at their ticket offices and palming them off on the public at par value. It was to check this swindle that the Director of the Mint published his circular, cautioning the public against accepting the trade dollar for anything more than it was worth, and now that their harvest is at an end, the holders of trade dollars are very indignant at the government for interfering with their operations.

## Arrest of Malin.

The Gold Hill News of yesterday says that at last it would seem as if Edward Malin, the defaulting book-keeper of L. P. Drexler & Co., stock brokers of Virginia, had been arrested. Saturday the firm received a dispatch from the Chief of Police of Philadelphia to the effect that he had caught Malin in that city. Subsequent communications between the Chief and the Virginia house not only confirm the arrest but establish beyond a doubt the identity of the man. He has been recognized by W. K. Williams, formerly of Virginia, and acknowledges his name to be Malin. Messrs. Drexler & Co., have already sent to have him brought back to Virginia, and the last development is that he will start immediately in the custody of a Virginian about to return from Philadelphia. Thus time begins to set all things even. Messrs. Drexler & Co. do not expect to recover anything with Malin, as the well known habits of the man assure them that he has here this gone through with everything taken.

## An Enraged Heavens.

Virginia Enterprise: A big team, loaded with wood, while turning from a cross-street into Main street, Lower Gold Hill, ran into the corner of the wash-house of Sung Lee. There was a terrible crash; part of the corner of the building came out, about a cord of wood tumbled down, and Sung Lee with his smoothing-iron in his hand, sallied forth in all the majesty of his wrath. "What matter you cried the indignant Celestial, who appeared to look upon the accident as a personal insult—"What for you all time fooler? You sabee jackass! Him jackass you all same blunder!"

## SHORT BITS.

Work has been commenced on the Folsom Branch Prison.

There are at present 1025 children attending the Vallejo public schools.

Eugene Sullivan was thrown from a horse in Marysville on Friday evening, and had his skull fractured.

George Larimer, a laborer on a ranch near Grayson, Stanislaus, committed suicide recently by taking poison.

James Davy, who was injured by a cave in the Idaho mine at Grass Valley on Tuesday, died from the wounds received.

The dwelling house of P. G. Baker, near Portland, Oregon, was destroyed by fire on Thursday night. Loss about \$1200; insured for \$500.

The little bird that gets up so early in the morning to warble his amours has no love letters to remind him of his dalliances, but he has his bill-ade.

Miss Mary Ellen Chase surely did not mean it when she said that there will be three women to one man in heaven, because two out of the three women wouldn't accept heaven on those terms.

The city of London has a population of 4,000,000, yet when a woman of 35 or 36 years of age makes up her mind to the fact that after all a life of single blessedness is a mistake, she is willing in a short time to take an oath that she is living in a country village.

## Stage Robberies in Arizona.

YUMA, Arizona, August 19.—On Thursday night, the 15th instant, the Southern Pacific mail stage was stopped near Maricopa Wells, by five Americans. They first relieved the passengers of their funds, and then went through the mail and Wells, Fargo & Co.'s box. Upon finding a considerable sum of gold and greenbacks, the robbers returned the passengers their money. On the same night the stages in and out of Tucson were stopped by four Mexicans, at Pichacho. The passengers were robbed of their spare cash and the clothing was taken off their persons. Trunks also were ransacked, and all wearing apparel removed. The mail and express were robbed. The amount of the loss is unknown. Telegraphic communication is again interrupted. It is reported that Detective Evans was the only passenger on the stage going to Tucson. The robbers relieved him of his clothing and arms. They cut the horses loose from the stage and attempted to ride away, but the animals refused to move. This makes the fifth robbery within three weeks.

## New York Roughs on a Lark.

NEW YORK, August 19.—The Seneca Social Club of the Nineteenth Ward had an excursion to Rockland Lake, yesterday, on the steamer I. H. Starin and the barges Baltimore and Vanderbilt. A crowd of roughs on the Starin became boisterous on the return trip, some five miles above Yonkers, and the attempts of the managers of the excursion to quiet them were unsuccessful. The frightened excursionists were driven by the roughs to the stern of the upper deck and even those who had the boat in charge were kept back by the showing of pistols. After pulling over the bar and otherwise disporting themselves, one of the roughs threw off his coat and dared any one to "come on." A general fight ensued, during which a knife was driven through the hand of George McGinnis, of South Fifth avenue and Houston street. On the arrival of the boat, Bernard Gilligan and James Morrissey, the ringleaders, were arrested.

## Sacramento's Sensation.

SACRAMENTO, August 19th.—Geo. C. Lawrence last March was found dead in Trivoli pond north of the city. It now transpires that he was a frequenter of Dye & Clark's saloon. He had given all his money and goods to a young man from whom Dye, as Public Administrator, subsequently recovered it. Since Dye's arrest the young man has been very uneasy, and on Friday he suddenly left the city for the East. These facts excite a suspicion that either he or Dye, or both, had something to do with Lawrence's singular death.

## Ship Boarded and Robbed.

NEW YORK, Aug 19.—Five men with masks covering their faces boarded the ship Wm. P. Hurst, in Corlaer's slip, Friday evening, and while threatening the crew with drawn pistols, robbed them of all their clothes and \$60. George Willard and Ross Carr attempted resistance, and one of the thieves fired two shots at them. Carr was wounded in the leg. One of bullets passed between two men and lodged in the forward bulkhead. The vessel was ransacked from stem to stern.

## General Sherman's Movements.

OMAHA, August 18.—Gen. Sherman, accompanied by his Aid de Camps, Generals McDowell and McCook, left Omaha to-day for Fort Defiance, New Mexico, two hundred and fifty miles west of Santa Fe, his business there being in connection with the Navajo Indians, with whom he has some matters to adjust, he having made a treaty with them some years ago. Before his departure from Omaha Gen. Sherman inspected the Omaha barracks, and gave directions for the immediate expenditure of the Congressional appropriation of sixty thousand dollars for permanent improvements, among which is to be a building costing thirty thousand dollars for headquarters of the Platte. He apprehends that no serious or extensive trouble, such as war, will ever arise from the Mexican border troubles.

## The Invasion of Mexico.

NEW ORLEANS, August 17.—A Galveston News special from Eagle Pass says McKenzie's forces yesterday, after crossing the river, surrounded New Town, but Omeda, whom the Americans were after, escaped. All the Mexican troops at Piedras Negras, numbering about 100, have gone up the river. They are ordered to skirmish with the Americans, but to avoid a general engagement.

## Movement of General Sherman.

OMAHA, August 18.—General Sherman, accompanied by his Aide-de-Camp General A. McDowell McCook, left Omaha yesterday for Fort Defiance, New Mexico, 250 miles west of Santa Fe; his business there being in connection with the Navajo Indians, with whom he has some matters to adjust, he having made a treaty with them some years ago.

## Bold Robbery in Nebraska.

OMAHA, August 19.—H. T. Clark's store at North Platte bridge, twenty-five miles from Sydney, was raided on Friday night by four young men, well mounted and armed, who secured \$150 in money and some goods. They bulldozed four men in the store and made them throw up their hands.

## SPECIAL NOTICES.

### Don't Forget It.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid at this season of the year, as poisons arising from marshes, stagnant water are more numerous, and are, through inhalation, taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Prairie Flower proves itself the great liver panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by our druggists, OSGOOD & SUGENAKER. aut eod

## INSANE IJAMS.

Reverend Ijams, of San Francisco, is hard at it again, and notwithstanding the merited reproof administered by this metropolitan chronicler has been stuffing his hearers with flat and dull edged truths, administering to them a sort of moral soda water, as it were, which is patent without having decided effect merely distends the religious stomach and renders the parishioner torpid with piety. We can always endure a man like Ijams although his ears do not strike us as fairly proportionate. We can not, however, forgive the callow journalist who puts this mental infirmity in print. Among the many beautiful latitudes which Ijams emitted on Sunday last we find the following severe accusation:

The Sacramento murderer first turned over the temptation in his own mind, and discussed the matter with himself and then with evil companions, instead of repelling the suggestion at once. Now he lies in prison bewailing his folly.

Ah, yes. So this Tullis murder was a folly, Mr. Ijams. You say it probably without fear of contradiction. You are calculating moral truths and printing them with folies. That was probably your sweet intent, Ijams, but see here. If we ever hear of any more such clumsy blacksmithing both with English and sense, the office assassin shall be dispatched to your relief and given a furlough in which to "beware his folly."

## EDITORIAL NOTES.

The Ward Reflex does not seem to be in love with Wm. W. Hobart, State Controller, and editorially mutilates a rash postmaster who is afflicted in that way. The Reflex will admit that Hobart has served the people faithfully, but when it comes to making an idol out of such material the Reflex can not be counted in. The postmaster, who is now just able to walk around, has been writing some letters to the Eureka Leader, in which he washes the feet of Hobart with ink and dries them with the fire of his imagination. The Reflex detected Mr. Reilly in this reprehensible amusement, and grasping the tripod, proceeded to hammer the epistolary spirit out of Mr. Reilly. The frame of the Reflex editorial is made of these two broad facts: Mr. Hobart is not a crown prince, and acknowledges no practical and abiding interest in this State or its government; Mr. Reilly can not supervise the large mail of Ward-town and at the same time evolve effective eulogies upon deceased politicians. About these two bones the Reflex has grouped much sarcastic flesh and rhetorical fat. The scarecrow thus constructed chills the anonymous nature of Reilly, and will probably drive him from the profession of letters entirely.

The Carson Tribune favors the proposition to make railroad freights and fares a distinct issue in the coming campaign. It is urged that Nevada is suffering in every way from the oppressive discrimination which is the practice of our common carriers. Supplementary to this, the good deacon also notices that decisive action upon this matter has hitherto seemed impossible on account of the low price which prevailed in our legislature. It is therefore recommended that the passage of laws against this wholesale and systematic extortion be made a special end and object of the approaching campaign; that men be elected to the legislature upon that issue, and that if they fail in redeeming pledges made to the people they be banished as disgraced officials. Other State papers have also arrayed themselves with the people upon this question, and it is generally understood to be an issue in the campaign. Hon. R. M. Daggett, candidate for Governor, has, in unmistakable terms, promised exertion and positive action in this direction. It is not necessary, however, to frame a bill just yet, but we should try to find a collection of legislators who can not be bought—cheap.

Several State exchanges have in their columns a pleasant little advertisement which tells how Steele's Medical Wonder will cure large numbers of diseases. Our cotemporaries also have in their wallets a bit of parchment which recites quaintly the certainty of

a remittance from Messrs. H. C. Kirk & Co., Sacramento, at a future date. The Times-Review says that this legend in speaking of a remittance, is a delusion and a snare—that the orders so generously issued by Dr. Steele will not be honored, and recommends the withdrawal of the advertisement. Who knows?

The Belmont Courier says that there is no dissatisfaction in Nye county at the action recently taken by the Republican County Committee. The Republicans of that county endorse, says the Courier, and we do not see why outsiders should feel called upon to growl. The Tybo Sun, however, differs with the journal above quoted and hints at an attempt to interfere with the programme. This last can not be done and should not be attempted.

The newspapers are all on the track of General Howard and he has fled to Fort Vancouver for safety. Latest reports say that the journalists were only three days in the rear when Howard reached shelter. We do not believe in this wholesale abuse. We may have differed with the General ourselves as to the destructive nature of prayer meetings in the field, but we realize that this affair is one-sided because General Howard does not have space to reply.

The editor of the Ward Reflex is mad because he was not invited to Sharon's recent reception at Belmont. This irate man could have used our card had he so desired, and we rebuke him for an evident intention to darken the brilliant reputation which Billy Sharon has made for himself in the Senate. The Reflex must be more considerate of Nevada's favorite son.

Calvin B. McDonald, the most brilliant journalist in California (if you are in doubt about it, ask him) is said to be on the way to Reno with his lecture on the "Massacre of Glencoe." Competent critics say that in his lining to Mr. McDonald's lecture the soul becomes filled with a wild regret that the massacre of the early McDonalds was not total.

## CONDITION OF CALIFORNIA.

The Sacramento Bee furnishes us some facts in regards to the crops and prospects of California:

The business outlook is not encouraging. Crops are in most parts of the State unusually good, but the farmers are in debt and the money lenders will reap the profits.

The tramp is more numerous than ever. Force is the argument which he now uses in levying contributions of money or provisions upon the producers.

Several large tracts of land have recently been divided and offered in small lots. The division of the Shafter ranch in Marin county has been followed by a large land-owner in Merced county. A tract of 10,000 acres, eight miles from Merced City has just been laid off into farms of 80 and 160 each. It is called the "Merced Colony." and the Directors are all residents of that county. There are 1000 shares at \$100 each. Next year Mr. J. W. Mitchell, of Turlock, who owns a hundred thousand acres in the San Joaquin valley, mainly in Stanislaus county, will put it into market in small lots at an average of \$20 per acre, payable on easy terms. Mr. Mitchell is at present engaged in constructing a ditch for irrigation, with the intention of guaranteeing settlers an abundance of water free of cost beyond the price paid for the land, which will include the use of water.

There is a general disposition manifest among the farmers to vary the crops and not depend solely upon wheat. The experiments thus far tried have proved successful. Flax, canary seed, potatoes, corn, nuts, raisins, grapes, etc., are successful. Yolo county will lose a portion of her grain crop by chess and rust.

A wet winter with snow in the mountains means plenty of water for the summer's mining, and a long season of navigation in the rivers; but this year is an exception. Water is scarce in the southern mines, while the San Joaquin is unusually low. In Fresno county the brooks are drying up very early.

Considerable interest has been excited throughout the State by the decision of the Secretary of the Interior concerning railroad lands. The acts of congress granting subsidies provided that lands remaining unsold by the companies three years after the completion of the roads should be subject to pre-emption at \$1 25 per acre. This provision of the law the Secretary says shall be enforced. It is hardly possible that the able lawyers in the employ of the railroad companies have failed to provide against loss by this requirement of the law. There is a land department connected with each company and it is probable that transfer of title has been made for self-protection. But, whether this be so or not, it was lately announced that the companies will contest this ruling and refuse to be governed by it.

## JOTTINGS.

Ben Wood, of Truckee, is in town to-day.

Judge Richardson and Constable Barlow have returned from their trip to Lake Tahoe.

District Attorney Cain who has been adding grace and beauty to the fashionable throng at the lakes is once more with us.

We shall not publish any criticism on Beecher. He requested us not to until he recovered from Deacon Parkinson's gorgeous word-painting.

A pleasant breeze has refreshed the town to-day and caused the inhabitants to rejoice. Reno won't forget her sufferings from heat for a long time to come.

Brother Loughborough, who has been taken into the Diety's confidence on the subject of the Second Coming, took down his tent yesterday morning and went forth upon his pilgrimage.

### A Virginia Swashbuckler.

The Virginia Stage, a little paper which is up to the times, copied from the GAZETTE an item relating to the trouble which Professor James had with Roos, the Virginia tailor who came down here to dun him for a bill of \$20 odd after his marriage with Mrs. Lillie Strouse. The Stage got itself into trouble because of its enterprise, as Roos has interviewed the editor of our contemporary, and given his narrative of the meeting. Although the GAZETTE reporter who wrote the item obtained his information from one of our officers, he has left town for a week—perhaps forever—for, according to Roos in the Stage, Roos is one of the most daring and blood thirsty characters of the present wild and reckless age. The editor of the GAZETTE particularly desires the writer of this paragraph to state that the absent reporter is alone responsible for the statement that Professor James tweaked the nose of Roos, and metaphorically spat upon him and rubbed it thoroughly in. The GAZETTE has the highest respect for a dangerous border desperado like Roos, who never, as the Stage very properly explains, collects money for the sake of the money, but merely because of the principle of the thing.

### "Louderdale's Leap."

Coroner Haslund states to a GAZETTE reporter that he was never notified of the death of Louderdale, the man who jumped from the second-story window of the county hospital on the 2d instant. The coroner agreed with the reporter that an inquest should have been held in the case, if for nothing more than to prove that the leap had nothing to do with the death of the man who died four hours after his fearful leap. Whysuch a thing should have been kept secret, and why the county physician should have assured a GAZETTE reporter that no such thing had occurred, is a matter for surprise. From the circumstances of the case as known at present, it does not seem that anybody connected with the hospital was to blame. There are not proper arrangements in the institution for the care of delirious and violent patients, and there was no occasion for keeping the affair so studiously quiet. As it is, the whole business has a look that is not creditable to the officials concerned.

## BEECHER'S LECTURE.

What Prominent Renosites Think of It—Some Astute Criticism.

A GAZETTE reporter to-day spent several hours of his expensive time in interviewing prominent citizens on a rather delicate subject. The first critical mind that was tapped was that of Tom Hymers, and the ravishingly interesting result is sewed on:

Reporter—What do you think of Beecher?

Mr. Hymers—Well, I've always thought that if I'd been Tilton I'd have taken a shotgun and—

Oh, hang it! I mean what do you think of his lecture last night?

Mr. Hymers—Well, he's an older man than I thought, and what the deuce any woman could see in him to make a fool of herself is more than I—

Reporter—Now, don't you think that passage about politicians was rather fine?

Mr. Hymers—As for the politicians, by Jove, I don't see where Beecher has the moral bulge on em. Why, look at what Bessie Turner testified to! Any man that has the face to tell me, by George, that I don't know what I'm talkin' about had better steer clear of me, that's all. And as for you, young fellow, if you come buzzing around me with your infernal nonsense I'll lift your upper story off.

The journalist started around the corner and meeting J. C. Hagerman asked that gentleman his opinion of Beecher.

Mr. Hagerman (glancing down over his new trousers with pardonable pride)—Borrowed, sir, borrowed; every word of it. There isn't an idea that Beecher expressed last night that you can't find in Bogg's Life of Smith. His observations on the turpitude of politicians may all be found in substance in Jones' Essay on Villainy. Why, what did Horatio Snifkins say to the citizens of Rome from the cornice of the Vatican in 1681? Didn't he throw his chest out grandly and cry to the howling populace: "Seek not for the new in prelates. If you want solid gumption, apply to Snifkins."

Here Mr. Hagerman hoisted his wastband contemptuously and walked away. The pain which this caused the reporter was quickly dispelled by the approach of a gentleman of surpassing beauty. It was indeed Washoe's favorite son, H. H. Beck.

Reporter (respectfully)—Might I ask your opinion of Washoe's favorite son?

Mr. Beck—Hey?

Reporter—Of Beecher, I mean.

Mr. Beck—Certainly, certainly.

Here Mr. Beck drew a printed slip from his pocket and read:

"The lecture was one that commended itself to all. No pen can describe its beautiful passages, its sublime and deep thoughts. We were somewhat disappointed in his oratory; he was more matter of fact than grandiloquent."

Reporter—Not grandiloquent? Well, I should hope not. What did you want the great man to do—jump around and tear up the carpet and howl? Has a fellow got to be a human base drum and locomotive whistle combined to meet your conception of an orator?

The fight which ensued was fierce but short, and the reporter deposited Beck's body at the door of the Journal office.

Wm. Duck on being approached said:

"The man is offensive to me, I don't care to express my opinion of his guilt or innocence. It might reopen the whole scandal."

Charley Knust was glad that Beecher had come. It had enabled him to invent a new cocktail. The lecture? Oh, Mrs. Tilton was entirely to blame.

Major Mann gave his opinion of the lecture simply by poking his thumb into the reporter's side and chuckling till he became purple.

Mark Parish upon being asked his opinion of Beecher as an orator, stated that he was present at the show and was astonished at the aged appearance of the performer. Searching his newspaper scrap-book he found that Beecher was born in 1813 and was therefore 265 years old. It appeared to him to be utterly absurd.

Constable Barlow wanted to arrest the reporter for disturbing the peace, as the citizens were becoming furious at the sight of him, so he gave up the hunt for critics and hastily dogged back to his den.

### And Again.

George Alt lost a pocket book, and, like a man of forethought, sent an advertisement to these columns. The pocket book was found the day before the ad. went into the paper—another melancholy proof of the value which may be reaped by advertising in these here columns.

### A Delicate Appetite.

Lew Walker, while over in Clover valley, made a meal one evening which renders him famous. He buttoned his duster over seven quail, five biscuits, five eggs, three pint-cups of coffee and half a can of currant jelly. Two hours afterwards he was querulously inquiring the locality of the ham.

## AFFAIRS AT TRUCKEE.

A "Gazette" Reporter Visits the Town and Tells What he Learned.

A GAZETTE reporter visited Truckee last Saturday and found the town very quiet. The place is duller than it has been for years. Business houses that in times past employed three or four clerks now manage to get along with only one. The Truckee Lumber Company's mill is the only one running. The company has a large sash, blind and furniture factory, which gives employment to large number of men. Between 30,000 and 40,000 cords of wood have heretofore been cut for the use of the railroad company every season, but this year they are clearing up the old stock and will not put in any. Truckee can help herself out when she puts her hand in her pocket and provides herself with efficient railroad facilities to ship her wood, lumber and square timber to Virginia. She will never find any one on the outside to do it for her.

### MISCELLANEOUS MATTERS.

A great many of the citizens are interested in Meadow Lake mines. If they come up it will be a boost for Truckee. John Moody, of the Truckee hotel, is making a nice thing out of the travel of pleasure-seekers to the lakes. He sends up two or three stage loads every day. A good deal of building is going forward on the burnt districts, of which the town has lately acquired several. The tramps have overflowed from Reno and the Truckeeite is arisen in his wrath and talking of 601. Frazier, of the Tahoe fishery, is going to sue the Donner Boom and Lumber Company for damage, because of the rolling of the water of the river, which turns up the toes of his fish. The Workingmen have the place by the wool politically.

### ANOTHER FIRE.

On Saturday night about 12 o'clock, a fire broke out in the residence of Mr. Lenham, a railroad watchman. The house was on the hill and the water had to be carried a long distance in buckets. The adjoining house of F. P. Stevens, caught several times, but hard work saved it. Mr. Lenham's loss was about \$500, partly covered by insurance.

### A Ghostly Find.

Yesterday afternoon, while the pavilion workmen were engaged in leading rock by Hatch's fence back of W. Duck's residence, they uncovered a human skeleton. A mass of gray hair lying by the skull betokened that the bones were those of an aged person and its length suggested that the skeleton was that of a woman. Coroner Haslund was notified and upon clearing away more of the rocks it was proved beyond doubt that an Indian grave had been found. The remains of a pair of blankets, a rabbit-skin robe and fragments of moccasins were lying among the bones. There were also found an Odd Fellow's gold badge, a pair of candle snuffers, a spoon and other things that a Plute would treasure. It is supposed that this was the skeleton of a very old Indian who a little more than a year ago had his wickup near the locality, and whom Dr. Bishop took a kindly medical interest in. The Coroner to-day laid the remains away in a decent grave.

### Horrible Accident.

A Gold Hill boy about twelve years of age, named Mike Cocklin, while stealing a ride on a freight train on Sunday last, fell off at the Virginia round-house and had both legs cut off and one arm broken.

### Newspaper Change.

The Truckee Republican has been purchased by C. F. McGlashan and D. J. Crowley from George O. Ford. Mr. McGlashan is a bright writer and will doubtless make the Republican lively and interesting.

—We forgot to say the other day that P. P. Ferguson, "old shingles" as he is in this burg, Ferguson can sell more shingles and cheaper than anybody. He never tries to get anything back, except to buy fruit and tobacco for his hands.

### SIMMOND'S NABOB WHISKY.

A GREAT REMEDY.

SIMMOND'S

NABOB

WHISKY.

—FOR—

Indigestion, Dyspepsia and Nervousness.

The Purest and Best

—FOR ALL—

Medicinal and Family Purposes.

HAS BEEN SOLD IN ALL THE EASTERN STATES AND GIVEN UNIVERSAL satisfaction. It is highly recommended by the Faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc. It is now introduced to the public of the Pacific Slope, endorsed by certificates of the eminent DR. J. HAYES, State Assayer of Massachusetts, and DR. H. C. LOUDERBACK of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guaranty to all buyers of its purity and quality.

I can show thousands of letters from private persons, from all parts of the Union and Canada, to testify to its merits and the benefit it has afforded, as a family remedy and tonic. Dyspepsia is called the national disease of this country, and many reasons why have been given. It is frequently said that people work too much, eat too fast, sleep too little, tax the powers of nerve and brain too incessantly, drink too much ice water, eat too much hot bread, smoke too much tobacco, give way to too much excitement, and consequently play themselves out in the shortest possible time. "A short life and a merry one" seems to be the sentiment that chiefly influences a large number of persons, but for all that no person feels at ease when suffering in health. Now, however, much or little truth should be attached to the opinion of physicians who charge the great prevalence of dyspepsia and nervousness to any of the causes mentioned, it cannot be denied that there are some applications received by druggists throughout the country for medicines to relieve and cure stomach and nervous pains and disorders, and all other maladies that afflict frail humanity. As might be expected under the circumstances, a large number of specific to successfully counteract these diseases have been introduced to the attention of the public, but nearly all of them have failed to do any good. Whenever, therefore, any alleged new remedial agent is spoken of, very little confidence is felt in it by reason of numerous past disappointments, so that people who are chronic sufferers from dyspepsia, indigestion, physical weakness, or nervousness almost despair of being cured. They, however, take too deep a view of the matter, for those who have used the celebrated NABOB WHISKY, which can be had from all respectable druggists and grocers, know by experience that it is a sure remedy for all the maladies referred to, and that its tonic properties are of the most strengthening character. Many persons who found it impossible to properly digest a single meal, and whose physique had been sadly attenuated, have derived immediate benefit from the NABOB WHISKY, and in a short time, by its regular use, regained all their health and strength. It can be taken with impunity, as no drugs are incorporated with it, and its healthy action on the human system is at once felt. The effect which it produces on the organs of the stomach is such as to create a vigorous appetite and render digestion easy, no matter what the habits of the sufferer may be, and it at the same time steadies the nerves and stimulates the brain. There are no fictitious claims for the great remedial agent, so that all persons who are troubled with dyspepsia or nervousness would be false to themselves if they failed to test its curative qualities. Its sale is rapidly on the increase, and the better it is known the more it is used.

CAUTION—None genuine unless labeled with my signature over the cork.

Private Medical Institute.

209, KEARNEY STREET, SAN FRANCISCO.

Established in 1854.

For the Permanent Cure of All Special and Chronic Diseases, as also all Female Complaints and Diseases of the Nervous System.

THE IMMENSE DESTRUCTION OF human life annually from secret and chronic diseases, caused this old and reliable institution to be established, first in Philadelphia, Penn., in 1850, and afterwards in San Francisco, Cal., in 1854, as a private dispensary, in order to afford the afflicted the best medical and surgical treatment, for the above and all other ailments and complaints. Consultation at the Institute, or by letter, FREE.

To the Afflicted:

Dr. L. J. Czapkey would most respectfully inform the public of the Pacific coast that, at the earnest solicitation of his numerous friends, and hundreds of those unfortunately afflicted with disease, he has reopened his MEDICAL AND SURGICAL INSTITUTE and resumed the practice of his profession. The Doctor would remind all those who are in need of medical aid, that since relinquishing his very extensive and successful practice in San Francisco, he has visited the principal cities in Europe, inspecting diligently the experience of the most learned in the profession, the benefit from which he offers to all in need of his services. Rheumatic affections, chronic catarrh, diseases of the stomach and kidneys, liver complaints, etc., successfully treated. Those who are suffering from the errors and indiscretions of youth, nervous weakness, physical and mental debility, are assured of a permanent cure. Charges moderate. All communication strictly confidential. Medical cases sent by express. Address,
